

“ACCESSIBILITY ELEVATED”

This rare national conference will bring together professionals who specifically serve Deaf, Deaf-Blind and hard of hearing (Deaf) victims & survivors of abuse.

If you are fluent in American Sign Language (ASL) and work in the human service field (that includes domestic violence & sexual assault services) as an advocate, mental health counselor, case manager, volunteer, Vocational Rehabilitation counselor, board member etc., you won't want to miss this opportunity!

The conference will collectively explore best practices for providing accessible and effective services to one of the most under-served populations in our country. Deaf

people, including victims/survivors, are often excluded from important information and services due to their communication and cultural needs. The JDVNC conference workshops will involve: working with collaborative partners to create the most accessible services; developing effective advocate services; creating in-service trainings and professional workshops; sharing tips on educating the Deaf community about abuse; exploring counseling and support group techniques and more!
